

The Third UN World Conference
on Disaster Risk Reduction [Public Forum]

Roles and Responsibilities of Guardians in Large-scale Disasters

We will introduce actions taken by guardian forced to evacuate because of the nuclear incident after the Great East Japan Earthquake. Here, we present how best to provide protection to wards with diminished physical strength and sense of judgement, and the actions that guardians should take when a disaster occurs.

In addition, we report activities of Shiho-Shoshi(solicitors) who are serving as guardians for underage children orphaned by the Great East Japan Earthquake.

Date/Time 2015.
3.17 (Tue) 18:00-19:30
(OPEN 17:45)
